Become a Rapid Developer (Analyst)

Rapid | 11 Modules | 12 Hrs

This learning path will teach you how to create awesome apps using low-code.

If you have a business analyst focus, this is the path for you, as it focuses on both Mendix Studio and Mendix Studio pro. If you have more of a development focus, look at the alternative path (<https://gettingstarted.mendixcloud.com/link/path/38>) which incorporates only Mendix Studio Pro. Alternatively, If you're already an experienced developer and you want to see what low-code brings to the table, please have a look at this accelerated path (<https://gettingstarted.mendixcloud.com/link/path/82>) for experienced developers.

Completing this path will equip you with the same skillset as with the developer-focused path and will lead to the same Rapid Developer Certification.

Get ready to have some fun, Mendix style!
